

YOUTH 11th & 12th BREAK-OUT TRACK REGISTRATION

Youth Strike for Christ 2012

This year, 11th & 12th grade attendees choose their own break-out session tracks for their small group times. We're bringing in speakers and leaders specific to each session topics, and we're talking about things that are important to you! Please print legibly, and choose your top 3 tracks on the following page.

Name _____ Date of Birth _____

Grade in School _____ Male Female

Church and town you are attending YSFC with: _____

Here are your breakout session topics:

1. Using Technology Like A Survivor

We know you are all about the new and improved technologies coming out everyday. In fact, you could probably teach us a thing or two! Now, let's talk about how we can use these new technologies to help us and others be Christian survivors.

2. Local Mission/Justice for all Survivors

Part of being a survivor is putting your passion into a mission. This guarantees your everlasting fingerprint on the people and world around you. Let's talk about some local missions, discover where your passion can be focused, come up with an idea and plan for a new mission, and much more!

3. Surviving the Controversies

As youth today, it is possible to get into arguments, hurt feelings, and step on toes all day! We spend much of our daily energies on figuring out how to respond to family, friends and even strangers as a Christian in a controversial world. Let's talk about some of these controversies and how to tackle them.

4. Keeping the Faith

Your schedule starts early in the morning and doesn't end until late at night. How do you stay balanced and Christ-centered in this crazy time? Let's talk about how and where God fits in our lives and why He's important.

5. Surviving College

You're going off to college soon! Let's talk about ways to be a Christian and take full advantage of the church while in school and being a college student. Bring some college questions, and we'll answer those too!

6. Seeing Beyond Tribal Lines

More and more we live in an integrated world with differing views. Let's talk about how we deal with different politics, religions and beliefs, cultures, and ages to find the human being and eternal God within us all.

7. Surviving the Seasons

Do you ever feel like you've joined the cast and been thrown onto Exile Island? How do we out-last the struggles life gives us? Let's unload our baggage and talk it through.

8. Uncovering Your Idols

Where do your beliefs take you? Do you have any impure idols that control you? How do you re-focus your life on the real life-saver? Let's figure out where you stand and how to out-last the temporary.

PICKING YOUR TRACK

Please number your first 3 track options on the bottom of the page. We will place you in one of your top three tracks.

Track 1

Surviving College
Surviving the Controversies
